Dr. Eileen Faulkenberry presented at the Conference for the Advancement of Mathematics Teachers (CAMT), held in Houston, June 24-26, 2015. Her talk, entitled "Wrangling Ratios and Perfecting Proportions," was recorded on video. The conference organizers then interviewed Dr. Faulkenberry about the session, and afterwards created two videos, both of which have been placed on the Conference website. These videos not only promote the Conference itself, but also promote best practices in teaching mathematics.

Dr. Faulkenberry says that she is “honored to be included with some amazing mathematics educators from across the state, whom I hold in high regard.”

Dr. Faulkenberry will be presenting at CAMT in San Antonio, June 29-July 1, 2016.
